

Would you like to help amphibians and learn more about wetlands?

FrogWatch USA™ is a citizen science program of the Association of Zoos and Aquariums that invites individuals and families to learn about the wetlands in their communities and help conserve amphibians by reporting data on the calls of local frogs and toads. AZA's FrogWatch USA comprises a national network of skilled coordinators and volunteers that form a community with the common goal of providing large-scale, long-term data on frogs and toads in the United States.

Won't you join us? Available **training lessons** are:

Tuesday, February 20, 2018 SNOW DATE: Thursday, February 22, 2018
