

# RESEARCH EXPERIENCES FOR UNDERGRADUATES on TRANSLATIONAL ECOLOGY

May 21 – August 10, 2018  
Millbrook, NY

Stipend, food, housing covered  
Assistance with travel cost

Contact: Aude Lochet  
([locheta@caryinstitute.org](mailto:locheta@caryinstitute.org))

- ✓ Conduct an independent research project in ecology
- ✓ Explore how ecological research impacts our society
- ✓ Be part of an exciting research community

Examples of project include:

Eavesdropping in birds • Mosquito ecology • Ecological changes in lakes • Hudson River in a changing world • Macro-vertebrate scavengers • Carbon and nitrogen dynamics in forest soils
