

Garden 1 Progress

December 2023

May 2024

SWSA students helped with increasing the diameter of the garden, removing debris and invasive species, Mugwort (*Artemisia vulgaris*) and Black Locust (*Robinia pseudoacacia*)

May 2024

Native plants started
to bud and flower.
Foxglove
Beardstongue
(*Penstemon
digitalis*), Purple
Coneflower
(*Echinacea purpurea*)

June 2024

Swamp Milkweed (*Asclepias incarnata*) plugs were planted in early June (white arrow), purple coneflowers and Scarlet Beebalm (*Monarda didyma*) started to flower

Name tags were added to each clump of native plants

- July 2024

Bricks were laid around the garden and a layer of gravel spread on the inside so that rainwater runoff and soil erosion will be prevented

August 2024

Final pictures and
pollinator pathway
sign was added
